Instruction

SUBJECT: TEXTBOOKS

It shall be the policy of the South Huntington Union Free School District to furnish textbooks for classroom instruction in all schools. In addition, the Board also has the responsibility of designating the textbooks to be used in the schools based on the recommendation of the Superintendent, who may involve appropriate supervisory and teaching staff members in the selection of textbooks. The textbooks recommended for adoption will support the best current instructional methods and be consistent with the curriculum established for the school.

Textbooks once designated, shall not be replaced within a period of five years except in such instances where the Board acknowledges extenuating circumstances which require earlier replacement.

Children who are residents of the District and attend nonpublic or private schools will be loaned textbooks designated for use by this Board. Private school students will make individual requests for each textbook they require. However, all students using District textbooks will be held responsible for such property and shall be required to reimburse the District for the damage, loss or destruction of textbooks.
