Panorama Education Results from 22-23: The committee reviewed a brief snapshot of the data collected from the 2022-2023 grade 3-12 student surveys for "Student Competency & Well-Being and Student Supports & Environment" conducted using Panorama.

The committee discussed the Panorama survey for 2023-2024. It was proposed to survey grades 3-8 for 2023-2024 to align with the new SEL program. The survey would then move to grades 3-12 for 2024-2025. The proposal was approved by all committee members present.

Updates in Panorama were shared as check-ins can be conducted with students by the school social worker. This is new for 2023 in the program with our updated subscription for data syncing with Infinite Campus and can allow for screening of all students to determine their needs. Dr. Fulton will continue to set up Panorama with the integration team so that we can train our school social workers on using this feature.

The [Second Step](#) program for Social Emotional Learning has launched for this year at all schools K-5. Silas Wood and Stimson are next to use the program this year, but will start at a later date.

The program [Morgan's Message](#) was presented as we are seeking to create a partnership to support the mental health of high school student athletes. All committee members agreed to further explore starting a chapter in South Huntington.

An article shared by Ms. Meijer "[Why We Celebrate World Mental Health Day](#)" was read and discussed by members of the committee.

Ms. Buhse shared that meals are continued to be provided by the members of the School Lunch program and will continue past this year.

The next meeting is scheduled for November 15, 2023 at 5:30 PM

The committee adjourned at 6:30 PM.
