Hi Kyle! Welcome to Faculty Feature!! 🥰
Tell me about your position at South Huntington

I am a new science hire this year at Walt Whitman high school and I teach regents level living environment, Earth science AIS (science learning lab), and electives meteorology and forensics.

Wow

What's your favorite part about coming to work everyday ?

I'd have to say interacting with my students fun and different personalities

What's the funniest thing you've heard a student say ?

That's a tough one. I hear a number of funny things everyday and most of them I guess are not too funny out of context. My students do have a habit of saying I look like ... and the answer is different every

That's a tough one. I hear a number of funny things everyday and most of them I guess are not too funny out of context. My students do have a habit of saying I look like ... and the answer is different every time! That's pretty funny to me and the class

Who do you look like ?!

I've heard everything from the man in the yellow hat from curious George to Lin-Manuel Miranda

LOL

Tell me something about you that would surprise your students

It might surprise some that I haven't told, I was in an all male a cappella group in college and a pretty good singer

Ok that's amazing. Pics ?!

Umm I can find some. Do you need them now? I didn't have any on my phone haha

3:45

Kyle >

Hahah that's okay

Favorite emoji ?

Pic from the internet

YES!

And I don't use many emojis beyond the faces but I do use this one a lot haha 🤪

Nice choice

I obviously use sciencey ones when I can 🧬🧪

Naturally yes

3:45

Kyle >

Naturally yes

If you didn't go into education, what alternative career would you choose ?

Hmm. I would probably do something where I'm in nature, but I would probably still find my way to be back educating people in some way. I love to get people excited about things while explaining and telling facts!

Love that !

Dream vacation spot?

I'd love to go Ireland some time (I was supposed to go for my honeymoon but Covid happened) but I have many places of natural beauty on my to do list of all climates!

Finish the sentence

I am deeply grateful for...

I am deeply grateful for...

My family and friends

And finally , who would you like to see featured next on faculty feature and why ?

James Pineda. He is a science colleague who is relatively new as well, and a ton of fun to get to know!

Awesome ! Thanks so much Kyle this was fun - have a great weekend !
