Marlee Rice >

Hi Marlee! Welcome to Faculty Feature Friday! 🥳  
How long have you been teaching Science at Stimson ?!

Hi there! This is my seventh year teaching science at Stimson.

Wow! What's your favorite subject in science to teach ?

I love teaching about rocks and minerals, the periodic table and environmental conservation.

What's your favorite rock/gemstone ?

Amethyst gemstones are my favorite.

Is your birthday in Feb? 🤔

Nope, January. My favorite color is purple.

Love it !  
Are you from south Huntington ?

3:10

Marlee Rice >

I grew up in Port Jefferson.

Favorite thing to do in your spare time ?

In my spare time I enjoy reading and playing with my pup, Brook.

Send me a pic of Brook!

Beautiful !! What's your favorite book?

3:10

Marlee Rice >

I love a good mystery book. It's hard to pick out a favorite.

Are you registered for miles for Michael?

I haven't yet but plan to. It is such a wonderful event that supports our own community. I love how it has been adapted for this year.

Yes!

What's a school event you look forward to every year ?

At Stimson, I look forward to the end of the year events for our eighth graders. The Eighth Grade Awards are especially commemorative of the hard work our students have put in. The Bon Voyage dance is a lovely send off to Whitman.

Nice !

Why wasn't the geologist hungry ?

Why?

3:11

Marlee Rice >

HA  
HA

He lost his appetite

Favorite food to cook ?

Hmmmm. To be honest cooking for me involves following a recipe from a meal box. I'm not super creative in the kitchen. 🤔

Lo!

What college did you go to

I went to St. Joseph's College for my bachelor's degree and most recently finished my doctorate at St. John's University.

What's a fun fact about yourself ?

I love to travel. I would love to visit New Zealand one day.

Favorite place you've visited ?

I visited Iceland a few years back. It was amazing to climb a glacier, swim between two tectonic plates and explore ice caves.

3:11

Marlee Rice >

Yes ! Iceland is fabulous

Have you been?

I have !

Tell me you were successful with seeing the Northern Lights.

I stayed in hafnofjordor, "elf town"

I was not 😞, that was the whole reason for the trip but it was overcast

It's such a fun and unusual place. Would be a great field trip for the kids !

It's such a fun and unusual place. Would be a great field trip for the kids !

I believe a group from Whitman visited a few years back. It had to be a fabulous field trip.

Wow!

Last question - who would you like to see interviewed next for faculty feature Friday ?

Great question, I would love to see Susan Schwartz be interviewed. She's always up to something fun in her classroom at Countrywood and outside of school!

Thanks so much Marlee!

Delivered

It was a pleasure, Christina!
