Hi Ramona! welcome to Faculty Feature! Tell me about your position at South Huntington 🧐

I'm proud to be a part of Whitman High School's faculty and its outstanding Math Department. 🧐

I am an enthusiastic teacher who enjoys the students and loves coming to work everyday. 😍

I am fortunate to teach an ICT Algebra class with my terrific Co-teacher, Jen Forrester. 👍💕 I also teach Accelerated Calculus and College Calculus 📖 where I challenge my students daily. The Calculus student's are given the opportunity to take the course for Farmingdale College Credit. 🏫 After school you will find me giving extra help regularly or supporting an event!

Wow!! 😲

What's your favorite thing about coming to work everyday ?

Ramona >

I love engaging with the students (and staff).

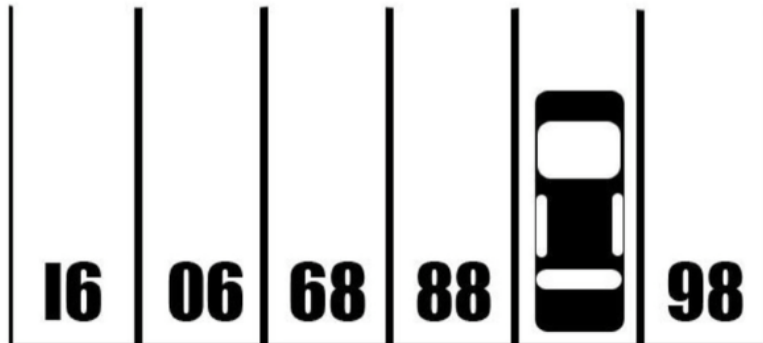

Everyday is a something new. You learn something about them and you get really excited when they have an 'ah ha' moment-you know, like when the light bulb goes on! It's really exciting and rewarding at the same time!

You know you're making a difference.

Definitely!

Growing up with three older brothers, I'd imagine you played a few sports when you were growing up?

In general, I played sports just for fun, intramural sports. Softball, and volleyball at Hofstra.

I actually coached more sports than I played.

I do have great memories of being my brother's secret weapon when playing football with them-no one ever thought they'd really throw me the ball so I always got a touchdown!! 🏈 Ha ha

HA HA

😂😂 I love that !

Let's bring it back to your parents bakery. Send me a pic of your favorite pastry !
