Community Relations

SUBJECT: PUBLIC PARTICIPATION AT BOARD MEETINGS

The Board recognizes its responsibility to conduct its business in an orderly and efficient manner, while at the same time being accessible and responsive to the school community. Toward this end, residents are invited and encouraged to attend all public meetings of the Board of Education.

The right to make formal or informal presentations is restricted to District residents and employees. The Board may, however, permit appropriate representative parties to participate.

Adopted: 6/16/99
